

Give Us Your Feedback

- As required by our accrediting agency the Commission on Accreditation of Physical Therapy Education (CAPTE), the PT Assisant program is expected to solicit comments from the public regarding the effectiveness of the program to serve the needs of our employers, our clients, and our students on an ongoing basis ***which may fall outside of the usual college's due process policy***. If you would like to submit comments, compliments, or suggestions to be reviewed and considered during our next accreditation site visit or any time afterward, please forward those comments and/or suggestions to the Program Coordinator or Director of Allied Health by December 31, 2010. Please contact the Director of Allied Health via lois.williams@uc.edu or 513-732-5339 with any feedback.
